INTERNSHIP:

Successfully completed Three months internship program as a “**Frontend Developer**” at “**AS Global Soft Tech**”- Coimbatore. I contributed to frontend development tasks using HTML, CSS, Bootstrap, JavaScript and React Js.

PROJECTS:

-
- **Pharmacy Management System** – MERN Stack
 - Built using MongoDB, Express.js, React.js, and Node.js to manage pharmacy inventory, customer records, and transactions.
 - Optimized the database using MongoDB for the efficient data storage and retrieval.
 - And I used Bootstrap for styling the cards and buttons.
 - **Smart Water Bottle** – Design Thinking
 - Project done with using Arduino board for to reminder and water level.

WORK EXPERIENCE:

Three months Intern Experience.
